DIRECTIONS FOR USE

Use as a refill to fill the ready to use hose on Hasta Gro Lawn Sprayer or use in any spray equipment. If you are using a hose on sprayer set mixture to apply 1 ounce of Hasta Gro Lawn to each 1 gallon of water. Use 8 ounces per 1,000 sq. ft. of grass.

APPLICATION

One gallon covers 16,000 sq. ft. To determine each 1000 sq. ft. area, walk off 33 ft. x 33 ft. Use 1/16 of the container for each 1000 sq. ft. area. For established yards where grass clippings are left on, treat 4 times per growing season. For lawns in poor condition or with grass clippings removed, treat every month during growing season.

DO NOT WATER LAWN FOR 24 HOURS.
APPLY LIGHTLY AND EVENLY TO LEAVES.
DO NOT SOAK INTO SOIL.

KEEP THIS AND OTHER PRODUCTS OUT OF CHILDREN'S REACH

Zinc (Zn)	.05%
.05% Chelated Zinc	
Humic Acid	0.50%

Derived from Urea, Phosphoric Acid, Potassium Nitrate, Potassium Hydroxide, EDTA Iron, EDTA Manganese, EDTA Zinc, EDTA Copper, Sodium Molybdate, Leonardite Ore.

ONE GALLON (3.785L) NET WEIGHT 10 LBS. (4.5Kg)

Hasta Gro Liquid Lawn Food is specially formulated for all lawns. Since Hasta Gro is a liquid lawn food, nutrients are taken in directly through the leaves, which means faster, more efficient absorption of the fertilizer. Hasta Gro helps grow greener, more vigorous lawns from spring to fall by supplying plant nutrients in combination with HuMate Humic Acid for more complete nutrient uptake (less fertilizer waste) and Medina Soil Activator to stimulate natural soil organisms.

Hasta Gro Liquid Lawn Food can be applied to new sod as soon as it is planted. The plant nutrients are taken in through the leaves and will help the grass develop roots.
